

FINAL RESULTS

TOP 5 ranking

Average values of experts from both the Netherlands + North Rhine-Westphalia regarding the priorities in enlarging CSF cross-border-cooperation

5 = very high priority

4 = high priority

3 = average priority

2 = low priority

1 = very low priority

0 = no priority

-1-	VACCINATION Consultation about the feasibility of vaccination control measures and the design of interfaces where necessary.	4.2
-2-	RESTRICTION AREAS + COMPARTMENTS Consultation about the existing measures and designing interfaces where necessary.	4.1
-3-	EXERCISES Establishment of regular cross-border-exercises + its evaluation.	4.0
-4-	CONTACT STRUCTURE + INFORMATION TRANSFER Clarification of communication channels in times of crisis and design of interfaces where necessary.	4.0
-5-	EARLY WARNING Comparison of measures + designing of interfaces where necessary.	3.8

The Netherlands

Ascertain your priorities for the cooperation between the Netherlands and North Rhine-Westphalia on the range of animal disease control by assigning certain values between 0 (= no priority) and 5 (very high priority).

5 = very high priority

4 = high priority

3 = average priority

2 = low priority

1 = very low priority

0 = no priority

The Netherlands - Final Results

(1)	VACCINATION Consultation about feasibility of vaccination control measures.	(4,5)
(2)	RESTRICTION AREAS + COMPARTMENTS Consultation about the existing measures and design of interfaces where necessary.	(3,9)
(3)	EARLY WARNING Comparison of measures + design of interfaces where necessary.	(3,9)
(4)	CONTACT STRUCTURE + INFORMATION TRANSFER Clarification of communication channels in times of crisis and design of interfaces where necessary.	(3,8)
(5)	REGULATIONS Clarification of national differences above the EU-regulations	(3,7)
(6)	PERSONAL PLANNING Cross-border-exchange of experts during a crisis (liason) as a personnel interface in communication and information transfer.	(3,5)
(7)	EXERCISES Establishment of regular cross-border-exercise + its evaluation.	(3,5)
(8)	CLEANING + DISINFECTION Establishment of a network for regular exchange of information to advance the level of cross-border-familiarity.	(3,5)
(9)	TRAINING + EDUCATION Establishment of regular cross-border-training + its evaluation.	(3,4)
(10)	HYGIENE MANAGEMENT Establishment of a network for regular exchange of information to advance the level of cross-border-familiarity.	(3,4)
(11)	VETERINARY STRUCTURES Clarification of responsibilities and chain of command to advance the level of cross-border-familiarity.	(3,4)
(12)	EPIDEMIOLOGY Establishment of a network for regular exchange of information to advance the level of cross-border-familiarity.	(3,4)
(13)	COOPERATION WITH THE PRIVATE SECTOR Clarification of the relation between administration and private sector.	(3,2)

(14)	CONTINGENCY PLANNING Exchange of translated contingency plans to advance the level of cross-border-familiarity.	(3,1)
(15)	CONTACT STRUCTURE + INFORMATION TRANSFER Establishment of network regarding the national responsibilities in CSF-control.	(3,1)
(16)	PERSONAL PLANNING Regular exchange of experts on different topics (exchange-programme).	(3,1)
(17)	ANIMAL DATA MANAGEMENT Clarification and comparison of data management systems and design of interfaces where necessary.	(3,0)
(18)	MARKETING Consultation about cross-border marketing strategies in times of crisis.	(3,0)
(19)	FINANCING Comparison of animal disease refund systems.	(2,8)
(20)	CONTACT STRUCTURE + INFORMATION TRANSFER Cross-Border standardization of national reporting systems.	(2,8)
(21)	EQUIPMENT PLANNING Comparison of resources allows synergy effects by sharing and lending.	(2,7)
(22)	LABORATORY CAPACITIES Clarification of capacities allows synergy effects by sharing the testing.	(2,7)
(23)	FINANCING Exchange of strategies regarding the use of the animal health fund.	(2,6)
(24)	FINANCING Exchange of strategies to involve the private sector into financing of control measures.	(2,6)

North Rhine-Westphalia

Ascertain your priorities for the cooperation between the Netherlands and North Rhine-Westphalia on the range of animal disease control by assigning certain values between 0 (= no priority) and 5 (very high priority).

5 = very high priority

4 = high priority

3 = average priority

2 = low priority

1 = very low priority

0 = no priority

North Rhine-Westphalia - Final Results

(1)	EXERCISES Establishment of regular cross-border-exercise + its evaluation.	(4,4)
(2)	CONTACT STRUCTURE + INFORMATION TRANSFER Establishment of networks regarding the national responsibilities in CSF-control.	(4,3)
(3)	RESTRICTION AREAS + COMPARTMENTS Consultation about the existing measures and design of interfaces where necessary.	(4,2)
(4)	CONTACT STRUCTURE + INFORMATION TRANSFER Clarification of communication channels in times of crisis and design of interfaces where necessary.	(4,2)
(5)	MARKETING Consultation about cross-border marketing strategies in times of crisis.	(4,1)
(6)	EQUIPMENT PLANNING Comparison of resources allows synergy effects by sharing and lending.	(3,9)
(7)	VACCINATION Consultation about feasibility of vaccination control measures.	(3,8)
(8)	PERSONAL PLANNING Cross-border-exchange of experts during a crisis (liason) as a personnel interface in communication and information transfer.	(3,8)
(9)	CONTINGENCY PLANNING Exchange of translated contingency plans to advance the level of cross-border-familiarity.	(3,8)
(10)	PERSONAL PLANNING Regular exchange of experts on different topics (exchange-programme).	(3,8)
(11)	VETERINARY STRUCTURES Clarification of responsibilities and chain of command to advance the level of cross-border-familiarity.	(3,7)
(12)	EARLY WARNING Comparison of measures + designing of interfaces where necessary.	(3,7)
(13)	TRAINING + EDUCATION Establishment of regular cross-border-trainings + its evaluation.	(3,5)
(14)	EPIDEMIOLOGY Establishment of a network for regular exchange of information to advance the level of cross-border-familiarity.	(3,5)

(15)	HYGIENE MANAGEMENT Establishment of a network for regular exchange of information to advance the level of cross-border-familiarity.	(3,3)
(16)	CONTACT STRUCTURE + INFORMATION TRANSFER Cross-Border standardization of national reporting systems.	(3,3)
(17)	REGULATIONS Clarification of national differences above the EU-regulations	(3,1)
(18)	LABORATORY CAPACITIES Clarification of capacities allows synergy effects by sharing the testing.	(3,1)
(19)	CLEANING + DISINFECTION Establishment of a network for regular exchange of information to advance the level of cross-border-familiarity.	(3,0)
(20)	COOPERATION WITH PRIVATE SECTOR Clarification of the relation between administration and private sector.	(3,0)
